FEATURES AND HIGHLIGHTS

Technical parameters

▪ External size (LxW):	2105x980 mm
▪ Mattress platform:	1925x820±10 mm
▪ Safe working load:	200 kg
▪ Height adjustment:	400-710mm±10 mm
▪ Back-rest adjustment:	0-84° (±10°)
▪ Knee-rest adjustment:	0-47° (±10°)
▪ Voltage	100-240 V
▪ Frequency	50/60 Hz
▪ Plug as required (hospital grade)	

Technical configuration

☑ Linear Motor	3pcs
☑ Hand Controller	1pc
☑ 5" Covered Castors	4pcs
☑ Foldable Side Rail	1set
☑ PP Bed Ends with Safe Lock	1set
☑ IV Pole	1set
☑ IV Pole Prevision	4pcs
☑ Drainage Hook	4pcs
☑ ABS Mattress Retainer	2pcs

Optional color (MOQ100pcs- color changing)

QUALITY CONTROL

SAIKANG medical, as a pioneer in the field of medical furniture, always choose branded suppliers strictly to ensure the safety and reliability of raw material. SAIKANG adopt robot welding, automatic epoxy coating, efficient assembly line, dedicated operator, rigorous quality control, only to guarantee SAIKANG's commitment on quality

Design

The design is both modern and practical. The head and foot boards feature a beautiful and elegant shape. The use of a hollow protective wrap angle, combined with a barrel-type bumper, makes the product instantly recognizable.

Steels | welding

Baosteel from Fortune Global 500. Panasonic Robotic ensure 360° full smooth welding.

Plastic | Painting

Environmental plastic can be sterilized at a temperature of 100°C and has a tensile strength of up to 30MPa. 11 Process epoxy painting with a thickness of 0.12mm and a brightness of 60°, which is capable of resisting impacts of up to 50kg.

Electric Motor

American motor, with UL/ROHS/EN standard. Noise under 50dB, with lifetime 20,000 times movement.

Accessories

Head & foot board

The head and foot boards feature "integrated protective corners" with hollow design, which are combined with barrel-type bumper wheels that have a diameter of 60mm.

This design not only minimizes the overall space occupied by the bed but also provides protection.

Additionally, the head and foot boards are effortless to disassemble and clean.

Castors

5" covered castors.

PR material, walks 30KM with no wear and tear. Precision-designed anti-winding shell with no screws.

Pass Dynamic test: withstand a weight of 120kg, walk 30KM, and pass through 500 obstacles without any deformation or damage.

Platform

Die punching bed platform features a robot-welded surface that has been polished to perfection, leaving no welding scars. Bearing 200kg.

Siderail

The siderails are made of aluminium alloy horizontal bar, 6 vertical stainless steel poles and a plastic handle.

Mattress Retainer

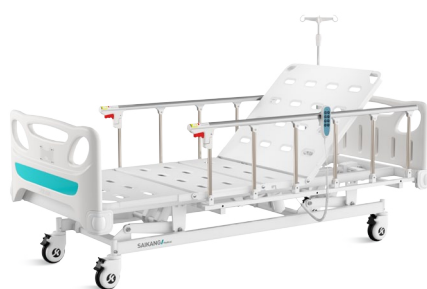

The dual-function mattress retainer serves to not only prevent scratches on the bed frame's paint but also retracts the mattress to its place, and prevents mattress sliding.

Drainage Hooks

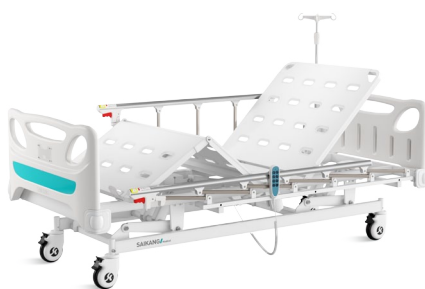

Drainage hooks built in the siderails. This integrated design is both cost-effective and functional.

IV Pole

The infusion pole is made of stainless steel and has four plastic hooks that can bear up to 15 kg of weight.

Back-rest adjustment

 $84^{\circ} \pm 10^{\circ}$

Knee-rest adjustment

 $47^{\circ} \pm 10^{\circ}$

Height adjustment

 $400-710_{\text{mm}}$
