SK-PB023

ELECTRIC SPINAL
THERAPY BED

SK-PB023

FEATURES AND HIGHLIGHTS

Technical parameters

▪ Bed Body Dimensions (mm)	L1800×W550×H520~740
▪ Extended Ankle Cushion Dimensions (mm)	150
▪ Mattress Thickness (mm)	95
▪ Lifting distance (mm)	220
▪ Load-Bearing Capacity (kg)	200
▪ Power input requirements	AC220V, 50Hz
▪ Rated power	200VA
▪ Drop Function Areas	Head and neck/upper thoracic/ lower thoracic spine/lumbar pelvis

Design

Carefully designed according to the different pressure conditions of various parts of the body, it fits the body's curves, making it the preferred product for those engaged in long-term spinal treatment and care.

Base

Selected high-quality Baosteel from Fortune Global 500 with specifications of 40*40mm, 40*80mm, and 25*50mm respectively, with a wall thickness of 1.5mm. Manually welded in one piece, with smooth weld seams, capable of bearing up to 200 kilograms.

Coating

The surface is coated with high-hardness powder, making it environmentally friendly, economical, and durable.

Bed surface

The bed surface is made of high-quality eco-friendly leather that is anti-fouling, flame-retardant, and mildew-resistant, with high-density sponge, 9.5 cm thick. The base is supported by a high-density board. Available bed surface colors: black, blue, red.

Foot Controller

Cylindrical steel four-leg support, ensuring stability and safety.

Motor

CE-certified domestic motor with a powerful push rod, providing a thrust of 8000N. The shortest installation hole distance is 328mm, with a stroke length of 120mm. It adjusts the lifting of the intermittent compression bed, providing gentle and soothing massages to the body, enhancing relaxation and comfort.

Casters

The base frame is equipped with two casters. When the head of the bed is lifted, the rear casters become active, allowing the bed to be moved.

Foot pads

Steel non-slip foot pads ensure stability and safety.

Headrest adjustment

The headrest is equipped with two small motors that control vertical movement and angle tilt. The vertical movement range is 0-5 cm, and the headrest can tilt up to 12 degrees upward and 12 degrees downward.

Headrest width adjustment

The hand-operated mechanism allows for lateral adjustment of the headrest width, making it suitable for people with different face sizes. The adjustable width is up to 6 cm.

Middle section angle adjustment

The middle section of the bed can be raised to adjust the angle, with the adjustment rod controlling the bed's angle. Height adjustment range: 0-50 mm. The angle between the leg board and chest board can be adjusted from 0 to 60 degrees.

Armrest

The armrest bracket is a fixed bracket, designed to fit the natural downward position of the arms, providing comfort and relaxation. Load capacity: 15 kg. The dimension of the armrest: L390 mm * W100mm.

Four-section drop function

Feature drop functions for the head and neck, upper thoracic, lower thoracic spine, and lumbar pelvis. The bed surface can be manually lifted and pressed down to achieve the drop function. The pressure is controlled by rotating a knob.

Extended Ankle Cushion

To accommodate people of different heights, the extended ankle cushion features a retractable and vertically adjustable design. It can extend up to a maximum of 15 cm when pulled out and has a vertical adjustment range of 0-50 cm.
