FEATURES AND HIGHLIGHTS

Technical parameters

▪ Bed Body Dimensions (mm)	L1720× W580× H570~890
▪ Extended Ankle Cushion Dimensions (mm)	180
▪ Mattress Thickness (mm)	80
▪ Lifting distance (mm)	80
▪ Load-Bearing Capacity (kg)	200
▪ Power input requirements	AC220V, 50Hz
▪ Rated power	200VA
▪ Product Net Weight (kg)	95
▪ Drop Function Areas	head/ neck/upper thoracic/lower thoracic spine/lumbar pelvis

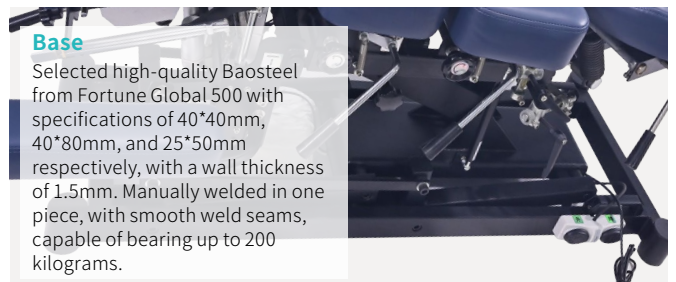

Design

Carefully designed according to the different pressure conditions of various parts of the body, it fits the body's curves and is suitable for use with American chiropractic techniques. It is soft, comfortable, sturdy, and easy to install.

Base

Selected high-quality Baosteel from Fortune Global 500 with specifications of 40*40mm, 40*80mm, and 25*50mm respectively, with a wall thickness of 1.5mm. Manually welded in one piece, with smooth weld seams, capable of bearing up to 200 kilograms.

Coating

The surface is coated with high-hardness powder, making it environmentally friendly, economical, and durable.

Bed surface

The bed surface is made of high-quality PU leather that is anti-fouling, flame-retardant, and mildew-resistant, with high-density foam, 8 cm thick. The base is supported by a high-density board. Available bed surface colors: black, blue, red.

Leg support

Cylindrical steel four-leg support, ensuring stability and safety.

Foot Controller

The dual control foot controller allows for height adjustment of the bed surface within the range of 570 to 890 mm.

Headrest adjustment

The headrest is equipped with two small motors that control vertical movement and angle tilt. The vertical movement range is 0-8 cm, and the headrest can tilt up to 25 degrees upward and 25 degrees downward.

Headrest width adjustment

The hand-operated mechanism allows for lateral adjustment of the headrest width, making it suitable for people with different face sizes. The adjustable width is up to 6 cm.

Armrest

The armrest bracket is a fixed bracket, designed to fit the natural downward position of the arms, providing comfort and relaxation. Load capacity: 15 kg. The dimension of the armrest: L390mm * W120mm.

Four-section drop function

Four-section drop function: includes compression functions for the head, upper thoracic, lower thoracic, and lumbar regions. The bed surface can be manually lifted and pressed down to achieve the drop function. The pressure is controlled by rotating a knob.

3D Swing

Features left-right rotation, side rotation, and tail section downward compression functions. The maximum range for left-right rotation is 30 degrees, the maximum range for rolling rotation is 20 degrees, and the maximum range for downward compression is 35 degrees.

Retractable abdominal compression plate

The upper and lower thoracic compression positions are equipped with a retractable sinking compression plate, making it more comfortable for individuals with larger abdomens and for women when lying down.

Extended Ankle Cushion

To accommodate people of different heights, the extended ankle cushion features a retractable design that can extend up to a maximum of 18 cm when pulled out. Each side of the bed has two fixed knobs to secure the extended length. The extended ankle cushion is equipped with Velcro straps to secure the client's feet during the downward compression function for stretching purposes.
