FEATURES AND HIGHLIGHTS

Technical parameters

▪ External Size	L1845*W680mm±10mm
▪ Height adjustment	550-860mm±10mm
▪ Back-rest adjustment (°)	0~+45
▪ Net weight(kg)	60
▪ Safe working load(kg)	180
▪ Rated voltage and frequency	AC220V, 50Hz
▪ Input power	500VA

Technical configuration

☒ Brake Pedal	2pcs
☒ Motor	1pc
☒ Hand Controller	1pc
☒ 2" Casters	4pcs
☒ Face pillow	1pc
☒ Tissue holder	1pc

Optional

☐ Foot-pedal Controller

Framework

Bed frame surface painted with 1.5mm powder coated steel, seamless welded molding by robot, strong corrosion resistance, environmentally-friendly, and bright surface maintain an overall beautiful appearance. With this structure, the whole bed maintains more stable and makes patients feel more safe.

Mattress

The bed surface is made of the integrated high-end composite leather and hand-made cotton mattress, of which the curve design is ergonomic, elastic and soft, breathable, environmentally-friendly, easy to be cleaned, anti-bacterial, impact-resistant.

Control system

Back-rest adjustment: 0°~+45° (Screw adjustment)
Manual screw levers to adjust the back angle provide users with a safe environment during diagnosis and avoid interference.
Control system: hand controller or optional foot-pedal controller both can adjust overall lifting; CE certified linear actuator motor, one-button for free lift, low noise, and long service life; while manual air levers easily control back-rest lifting and leg-rest lifting.

Braking system

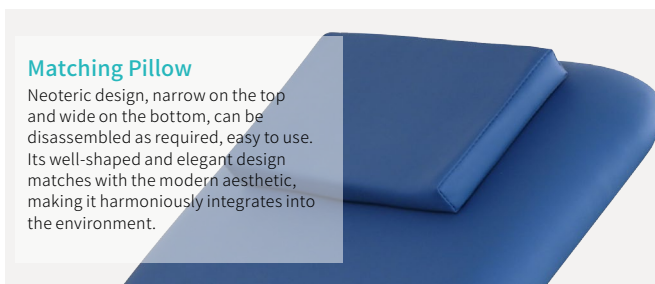

Equipped with Pedal-controlled 2" castors: 4pcs, brake pedals in 2 functions—locked and universal; 2 pcs, convenient to move and fix. 360° spinning wheels polyurethane PU—strong, durable, non-slip, strong in pressure resistance, and good in stability. Move freely when sitting on the bed, saving energy and effort.

Hand controller

Equipped with hook-type hand controller, easy to press and adjust optimal height. The hook on the back is convenient to take down for patients and nurses.

**Matching Pillow**

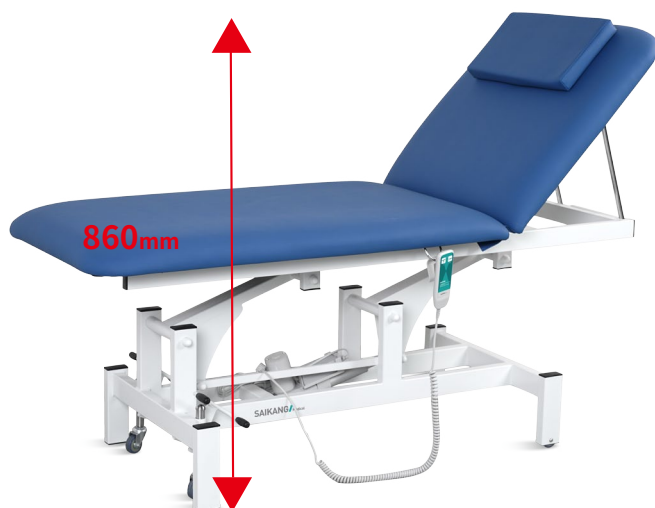

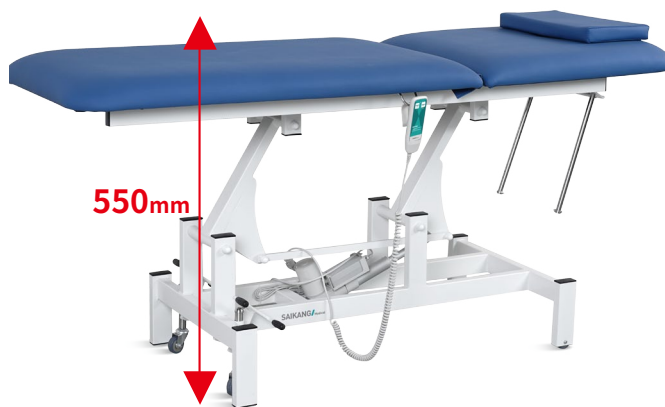

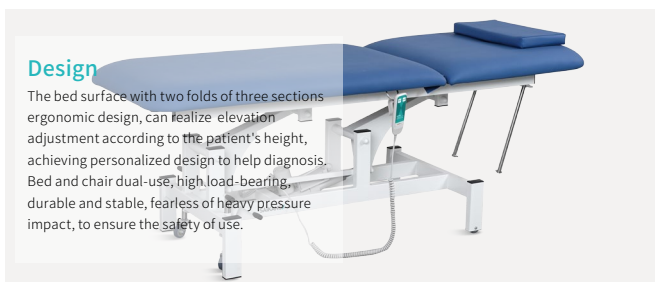

Neoteric design, narrow on the top and wide on the bottom, can be disassembled as required, easy to use. Its well-shaped and elegant design matches with the modern aesthetic, making it harmoniously integrates into the environment.

**Round Covered Edge**

The bed platform was covered in 360°. The soft-touch of surface would be safer for users.

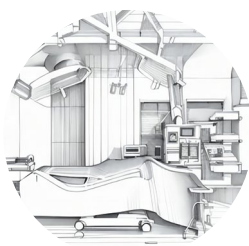

**Design**

The bed surface with two folds of three sections ergonomic design, can realize elevation adjustment according to the patient's height, achieving personalized design to help diagnosis. Bed and chair dual-use, high load-bearing, durable and stable, fearless of heavy pressure impact, to ensure the safety of use.
